Fresno County 4-H Livestock Achievement Program

Livestock Project leaders from across Fresno County came together on September 16th, to discuss events, activities, and resources that exist for Livestock Project members and leaders. Thank you to all who attended this informative meeting! Leaders were reminded of the many resources that are available to help educate them and their members and provide an outline of project meeting topics for the 4-H year. An explanation of the Livestock Achievement Program, as well as a link to the many resources available, can be found on the Fresno County 4-H Livestock Achievement Program webpage:

<https://ucanr.edu/site/fresno-county-4-h/4-h-livestock-achievement-program>

Be on the lookout for more information about upcoming opportunities for Livestock Project leaders and members and please save the date of

Emerald & Impact Star Awards Presented at County Achievement Night

When Spark Achievements are earned, many activities are explored and the one with the greatest personal interest is the “spark”. When the spark is identified, a member is ready to pursue the Emerald Star– setting goals and deciding how to make a difference in the community. In Emerald Star I– a 4-Her will accomplish a personal development goal and learn about an issue. In Emerald Star II, a 4-H’er will use their spark and personal development goal to learn about an issue in their community and create an impact goal that can help improve the community problem.

Those 4-H Members receiving *Emerald Stars* at County Achievement Night are:

Jina Khezri from Fowler 4-H- Emerald Star II

Blakeleigh Snell from Blossom Trail 4-H- Emerald Star I and II

Gatlin Snell from Blossom Trail 4-H- Emerald Star I and II

Impact Star Achievement-

Kashlynn Moore from Fairmont 4-H- Impact Star- Bronze

Thanksgiving Food Drive

Let's join our Lone Star -Fowler 4-H Club from October 1st - November 14th, 2025 for a Thanksgiving Food Drive to provide essential meal boxes for the Veteran families in need.

With your generosity, we can ensure that no one goes hungry. Together, we can make a meaningful impact on the lives of those in need in our community. Let's Share & Care!

Donations may be delivered to John S. Wash Elementary School on October 7th and November 4th from 5:30 PM to 7:30 PM or you may call Yim Honda at 559-349-6299 to make other arrangements. You may also drop off your food donations to the 4-H Office at 550 East Shaw Avenue, Fresno from 8:30 AM to 4:30 PM.

Sincerely,

Verona Honda (member of Lone Star - Fowler 4-H)

*Instructor Training Workshops are for those interested in becoming certified for the specific discipline. Upon successful completion of the workshop, 4-H Adult Volunteers will be certified as an Instructor, which allows them to lead a project in that specific discipline. Teen Leaders (high school age 4-H members) are eligible to participate provided there is an adult leader in their home county they will be assisting. Upon successful completion of the workshop, Teen Leaders will be certified as a an Instructor with a Teen Leader designation. Teen Leaders are not eligible to lead shooting sports projects or activities on their own, however, once they become an adult their instructor designation will be transferred with them.

*Additionally, **recertification is required every five years**, which can be fulfilled by successfully completing another workshop in that discipline or earning continuing education credits through participation in annual shooting sports instructor meetings

UNIVERSITY OF CALIFORNIA
Agriculture and Natural Resources

Ag Tech

**Learn Coding
Build Cool Projects
Solve Real Farm Problems**

What You'll Learn

- Wiring electronics (LEDs, sensors, motors)
- Block coding & Python programming
- Reading sensors and collecting data
- Automating farm & garden tasks
- Designing solutions for animals and crops

Why It's Fun

- Start with easy block coding
- Work in small teams with step-by-step guidance
- See your projects in action on real farm challenges
- Build your 4-H record book with STEM skills

Projects

- LED alert light for barn or coop
- Soil moisture sensor for plants
- Automatic water pump
- Mini greenhouse climate control
- Predator detection alarm

Signup in Zsuite!

Join our Ag Tech project and learn how to code and build real working farm technology. We'll meet once a month to create hands-on projects using Raspberry Pi — a small but powerful computer — and real sensors.

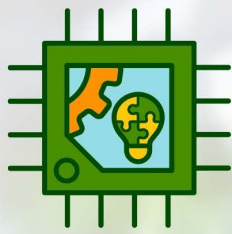

A personal Raspberry Pi setup is highly recommended so each member can participate in hands-on builds. If you don't bring one, you can still attend and learn by watching the demonstrations.
